WORK EXPERIENCE

**Strom Global Services Limited. Lagos, Nigeria/
METSCO Africa Energy Services Limited. Lekki, Lagos**

April 2023 – Present

I.T. Specialist

Lekki, Lagos

- Strom Global Services is a wholly indigenous company headquartered in Lagos Nigeria with branches in Canada and Texas in the USA providing services to various industries such as the Oil & Gas, Power, and Energy Industry. METSCO Africa Energy Services is an electrical engineering full-services firm which provides end-to-end solutions for companies primarily in the Energy Industry.
- I manage the website and email platforms, implementing updated and new functionality, and implementing requested changes.
 - Implemented changes to save the company more than 3.5 million Naira annually.
 - Fixed issues and perform maintenance on our website and email management systems.
 - Oversaw the team tasked with implementing SEO for and managing the social media presence of the companies.
- I provide technical assistance to the organizations and manage their computer systems, software applications, and hardware devices.
- I implement new infrastructure updates on the company systems and optimize their efficiency.
- I perform routine maintenance tasks such as system updates, software patches, and antivirus scans to ensure the security and stability of computer systems. This also includes monitoring system performance and identifying areas for improvement.

**Strom Global Services Limited. Lagos, Nigeria/
METSCO Africa Energy Services Limited. Lekki, Lagos**

August 2021 – April 2023

Business Development Officer

Lekki, Lagos

- I work on the development and execution of business tenders perform research to find and invest in new business opportunities.
 - Successfully bid for multi-million naira and dollar tenders issued by public and private organizations including several State Electricity Distribution Companies, Exxon-Mobil, Aviam Offshore, etc.
 - Initiated business relationships with companies such as ASG Solar Tech to partner with us for certain tenders.
 - Worked in tandem with accounting to determine pricing for proposed contracts.
- Manage tendering using the Nigerian Petroleum Exchange (NIPEX) portal.
- Underwent training on supply chain management and business development.
- Work in tandem with the I.T. department to manage the network and technology infrastructure.

Chevron Nigeria

January 2018 – June 2018

Intern, Risk Assessment Officer

Lekki, Lagos

- Chevron is one of the largest oil producers in Nigeria and one of its largest investors.
- As Risk Assessment Officer, I worked on risk assessment projects for petroleum product supply pipelines and helped to determine their point of failure.
 - Successfully worked on and delivered a major assessment for essential field infrastructure during my time working on the team.
- Underwent training in several departments such as Risk Assessment, I.T., Supply Management, Purchasing, and Field Work.
 - Part of this training included working on the Chevron Escravos Terminal, which houses a gas-to-liquid plant and storage facilities.

Aptech Nigeria

May 2017 – August 2017

Teacher, Intern

Ajah, Lagos

- Aptech is a global retail and corporate training solutions provider, with a presence across more than 40 countries. Aptech prepares students for global careers in I.T., multimedia and animation, hardware and networking, and other industries.
- As a teacher at Aptech, I taught MS Office apps and Adobe Photoshop to elementary level students.
- I also underwent training on web development and programming languages such as C, JavaScript, and SQL.
